## DATASHEET - M22-LED-G

## LED element, green, front mount, 12-30VAC/DC

Part no. M22-LED-G 216559

**EL Number** 4355369

(Norway)

| (Norway)                               |  |
|--|--|
| General specifications                 |  |
| Product name                           | Eaton Moeller® series M22 Accessory LED  |
| Part no.                               | M22-LED-G  |
| EAN                                    | 4015082165598  |
| Product Length/Depth                   | 38 millimetre  |
| Product height                         | 10 millimetre  |
| Product width                          | 37 millimetre  |
| Product weight                         | 0.011 kilogram   |
| Compliances                            | CE Marked  |
| Certifications                         | UL File No.: E29184 CSA File No.: 012528 UL Category Control No.: NKCR VDE EN 60947-5 CSA Class No.: 3211-03 UL CSA-C22.2 No. 94-91 CSA CSA Std. C22.2 No. 14-05 UL 508 IEC/EN 60947-5 CE IEC 60947-5 CSA Std. C22.2 No. 94-91 CSA-C22.2 No. 94-91 CSA-C22.2 No. 94-91 CSA-C22.2 No. 14-05 IEC 60947-5-1 |
| Product Tradename                      | M22  |
| Product Type                           | Accessory  |
| Product Sub Type                       | LED  |
| Features & Functions                   |  |
| Fitted with:                           | Diode<br>Light source  |
| Light color                            | Green  |
| General information                    |  |
| Degree of protection                   | IP20   |
| Lifespan, electrical                   | 100,000 h (at 25°C, according to EN60064)  |
| Operating torque                       | 0.8 N·m  |
| Overvoltage category                   | III  |
| Pollution degree                       | 3  |
| Rated impulse withstand voltage (Uimp) | 6000 V AC  |
| Voltage type                           | AC/DC  |
| Ambient conditions, mechanical         |  |
| Mounting position                      | As required  |
| Shock resistance                       | Mechanical, According to IEC/EN 60068-2-27 30 g, Mechanical, According to IEC/EN 60068-2-27, Sinusoidal shock 11 ms  |
| Climatic environmental conditions      |  |
| Ambient operating temperature - min    | -25 °C   |
| Ambient operating temperature - max    | 70 °C  |
| Ambient storage temperature - min      | -40 °C   |
| Ambient storage temperature - max      | 80 °C  |
| Climatic proofing                      | Damp heat, cyclic, to IEC 60068-2-30<br>Damp heat, constant, to IEC 60068-2-78   |
| Terminal capacities                    |  |
| Terminal capacity (solid)              | 0.75 - 2.5 mm <sup>2</sup>   |
| Terminal capacity (stranded)           | 0.5 - 2.5 mm <sup>2</sup>  |

| Electrical rating  |  |
|--|--|
| Power consumption  | Max. 0.26 W  |
| , ,  | 500 V  |
| Rated insulation voltage (Ui)  | 500 V<br>5 mA  |
| Rated operational current (Ie) - min   |  |
| Rated operational current (le) - max   | 14 mA  |
| Rated operational voltage (Ue) at AC - max                                       | 30 V   |
| Rated operational voltage (Ue) at AC - min                                       | 12 V   |
| Rated operational voltage (Ue) at DC - max                                       | 30 V   |
| Rated operational voltage (Ue) at DC - min                                       | 12 V   |
| Communication  |  |
| Connection to SmartWire-DT   | No   |
| Connection type  | Front fixing   |
| Contacts   |  |
| Force for positive opening - min   | 0 N  |
| Design verification  |  |
| Equipment heat dissipation, current-dependent Pvid                               | 0 W  |
| Heat dissipation capacity Pdiss  | 0 W  |
| Heat dissipation per pole, current-dependent Pvid                                | 0 W  |
| Rated operational current for specified heat dissipation (In)                    | 0 A  |
| Static heat dissipation, non-current-dependent Pvs                               | 0.45 W   |
| 10.2.2 Corrosion resistance  | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures                         | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat       | Meets the product standard's requirements.   |
| 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation                                 | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of assemblies  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components                           | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections                                | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material                         | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## **Technical data ETIM 9.0**

Low-voltage industrial components (EG000017) / Lamp holder block for control circuit devices (EC000204)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Command and alarm device / Bulb socket block for command and alarm devices (ecl@ss13-27-37-12-09 [AKF027019])

| (eci@ss13-2/-3/-12-09 [AKF02/019])          |   |         |
|---|---|---------|
| Transformer integrated                      |   | No      |
| With integrated voltage decreasing resistor |   | No      |
| With light source                           |   | Yes     |
| With integrated diode                       |   | Yes     |
| Lamp holder                                 |   | None    |
| Rated voltage Ue at AC 50 Hz                | V | 12 - 30 |
| Rated voltage Ue at AC 60 Hz                | V | 12 - 30 |

| Rated voltage Ue at DC            | V | 12 - 30          |
|-----------------------------------|---|------------------|
| Voltage type for actuating        |   | AC/DC            |
| Lamp type                         |   | LED              |
